

**RFS SERIES SHEET – HIGH LIGHT TRANSMISSION FROSTED SHEET
CLEAR FROSTED SMOOTH MATTE SHEET**

rotuba

GENERAL INFORMATION

RFS – Rotuba’s Frosted Acrylic sheet is made from frosted impact acrylic and has a smooth finish on one side and a matte finish on the opposite side.

FEATURES AND BENEFITS

This product offers a high ratio of bulb obscurity to light transmission. This product’s superior light transmission capabilities and non-glare surface make it a great choice as either a standard lay-in lens or is an excellent option for thermoforming applications, with its high transmission properties and the non-reflective finish it produces.

Smooth Matte finish allows for low brightness and lower glare.

STANDARD SIZES AND THICKNESSES

Standard Sizes: 2’X4’

Standard Thicknesses: 0.080” (tolerance +/- 10%) **RFS80**
0.125” (tolerance +/- 10%) **RFS125**
